THE INTELLIGENT SCALE PALLET TRUCK

SCALE TRUCK GS/P

The GS/P pallet truck is an intelligent and robust tool to be used for weighing and transporting your loads at the same time, making stock and dispatch processes faster, simpler and more efficient. The machine can be equipped with supplements such as printer or SD memory card and thanks to the 4 load cells it is able to be very precise and functional; ideal for checking incoming goods, avoiding overloads and determining shipping weights.

DISPLAY

Its large-sized 6 digits LCD display provides accurate and precise weighing in kg and lb. Its software allows not only net/gross/tare weighing but also unit counting, adding and totalling of multiple loads. Weights are shown in 1 kg/lb steps with 0,05% precision.

FRAME STRUCTURE

The structure is designed with a double frame consisting of a lower fork on which stands a counter fork. Both forks house two load cells allowing a uniform load distribution, and keeping high weighing accuracy even in case of collision and unbalanced load.

BATTERY and BATTERY CHARGER

The GS/P is supplied complete with rechargeable battery and charger. The battery module provides 50 hours autonomy.

CONFIGURATION

STANDARD:

Nylon polyurethane steering wheels and polyurethane rollers

OPTIONAL:

Rubber steering wheels

PRINTER / USB (Supplement, only available at time of order)

As supplement, the machine can be equipped with a built-in printer, able to print gross, tare and net weights (kg or lb), date, quantity of pieces on the scale.

It may also be enriched with another supplement, the USB, allowing you to store weighing data in a text file, for archiving and processing via PC.
